To Whom It May Concern:

Land Rover Cherry Hill is an automotive retail and repair facility. The site will be used to sell new and pre-owned Land Rover vehicles as well as servicing them as it is currently.

The total number of people employed by Land Rover Cherry Hill will be 30 full time employees. The service department is open from 7:30am to 5:00pm Monday thru Friday employing 17 people. The sales department is open Monday thru Thursday from 9:00am to 9:00pm, Friday 9:00am to 6:00pm and Saturday 9:00am to 5:00pm, employing 13 people.

All sales will be conducted inside the showroom with test drives given to customers when requested. Service repairs will be done indoor as well in the shop area. There will be no noise as all work is conducted indoors. All liquids and materials used to perform service and repairs on the vehicles will be disposed of in accordance with all applicable statutes and ordinances or recycled, as required, so as to not adversely impact the environment.

Customers will enter the front entrance of the facility on Haddonfield Rd, to either visit our showroom or service department. The customers will exit onto Haddonfield Rd at the designated location for exiting. The parts department receives an overnight delivery, in a small truck Monday thru Friday at approximately 4:00am each day. We also receive FedEx and UPS pickups and deliveries approximately 3 times day. New vehicles will be delivered to our facility at our accessory lot on Wynwood Ave, where tractor trailers will pull into to unload. As a result we are expecting that the effect on local traffic will stay at a minimum.

Please feel free to contact me with further questions.

Pierre Duris
Centre Manager
To Whom It May Concern:

Land Rover Cherry Hill strives to be an environmental friendly facility that prides itself in having a minimal impact on its surroundings. We will continue to recycle all recyclables and be in compliance with all applicable statutes and ordinances.

Land Rover Cherry Hill will place recycle bins inside the building (showroom and repair shop) as well as outside for larger items.

Please feel free to contact me with further questions
